

TERM LIMITS FOR US CONGRESS PETITION

We the undersigned, being 18 years old or older and legal residents of the State of _____ hereby petition the Legislature of this State to apply to the US Congress for the purpose of convening an Article 5 Convention for the sole purpose to Impose Term Limits on the US Congress. Furthermore, it is our request that the Amendment defined below be presented at the Convention verbatim.

PROPOSED AMENDMENT

No person shall be elected or appointed as a member of the United States Congress if the duration of the term for which the person is elected or appointed, in its entirety as defined within Article 1 of the United States Constitution, would result in the person serving more than 12 years of his or her life in the United States Congress.

Upon ratification of this amendment, a current member of the United States Congress, whose total number of years in the United States Congress exceeds 12, shall be allowed to complete the existing term for which he or she has been previously elected. Said allowance for completion of the existing term shall not justify exclusion for the member from actions beyond the scope of this amendment that lead to termination from the United States Congress prior to the completion of the existing term.
